Detailed description: The image shows a screenshot of the Microsoft MakeCode web editor for the micro:bit. The browser address bar shows 'makecode.microbit.org/#editor'. The interface includes a top navigation bar with 'micro:bit', 'Domov', 'Zdieľat', 'Bloky', and 'JavaScript'. On the left, there is a visual representation of the micro:bit board with its pins labeled 0, 1, 2, 3V, and GND. Below this is a search bar and a category menu with options like 'Základné', 'Vstup', 'Hudba', 'LED', 'Rádio', 'Cyklus', 'Logika', 'Premenná', 'Matematika', and 'Pokročilé'. The main workspace on the right contains a vertical stack of blue Scratch-style code blocks. These blocks include 'vždy' (always) loops, 'sobrasif refasoc: [pin]' (if button pressed) conditions, 'sobrasif LED' (turn on LED) actions, and 'pocastovif (m): [pin]' (set pin mode) actions. The bottom of the editor features a purple 'Up' button, a 'MENOVKA' (palette) button, and several utility icons. The Windows taskbar at the very bottom shows the search bar with the text 'Vyhľadávaný pojem napíšte sem' and the system tray with the time '17:13' and date '17.3.2021'.
